 : The parts changed in **Ver.M** and **Ver.N** are highlighted in yellow.

[1] Introduction

This entry manual has been created and established based on the present EIZO Procurement Standards (RC02-053 **Ver.V**) and describes how to complete the Chemical Substances Survey File for each product (including subassembly parts), materials, and parts purchased by EIZO Corporation.

[2] Versions and types of survey Files

Response Files consist of two different files, and this manual contains instructions on the following files.

- (1) EIZO MIS File Ver.2.3 onward
- (2) chemSHERPA-AI File V2R1.00 onward

(1) EIZO MIS File (Abbrev: MIS File)

- EIZO MIS File was independently created by EIZO Corporation.
- Please set the file name as follows.
"EIZO Part Number (10-digit)_MIS2.3_yyyymmdd.xlsx"
Example) "1234567890_MIS2.3_20241101.xlsx"

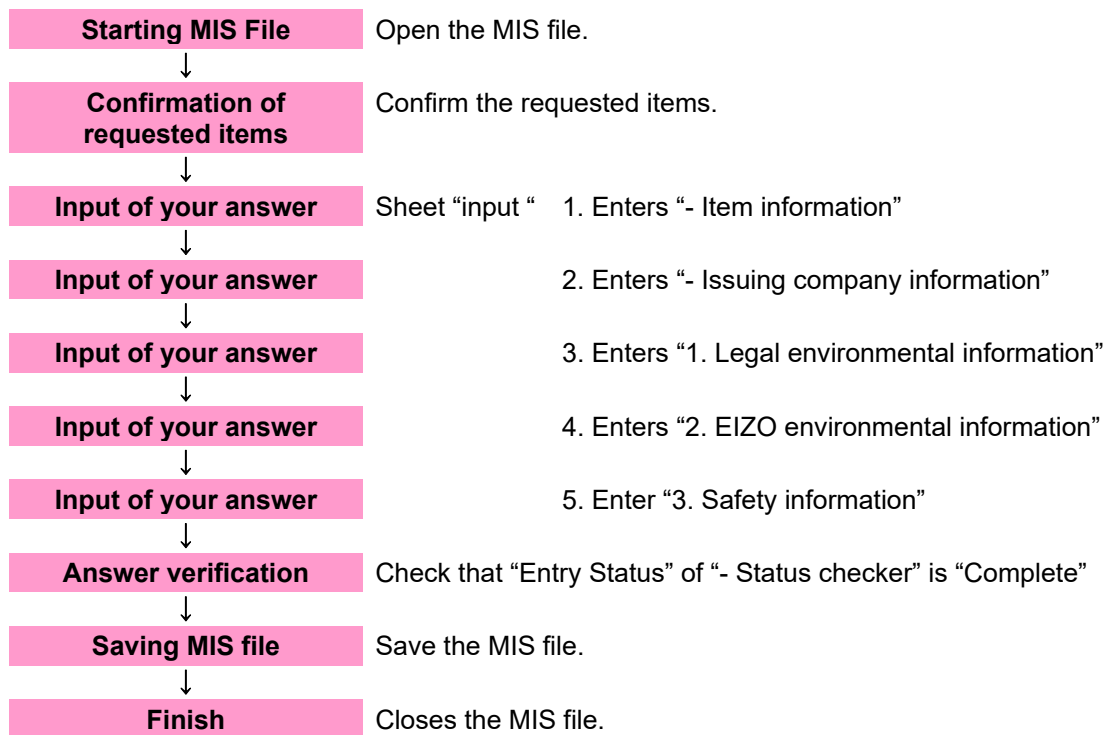

Please refer to Section [3] to [9] to create the File in this entry manual.

(2) chemSHERPA-AI File

- chemSHERPA is A scheme that facilitates sharing information on chemical substances in products.
- To create chemSHERPA-AI File, please download chemSHERPA data entry support tool for articles from the official website of chemSHERPA.
URL : <https://chemsherpa.net/chemSHERPA/english/>
- Select "Output V2ex format" for the output format.
- The File extension is ".shai".
- Please set the file name as follows.
Example) 1234567890_SHAI_-_2.10.00_V2ex_20241101121655.shai
EIZO Part Number(10-digit alphanumeric)_SHAI_Reference number_ External Listing Version
Output format_yyyymmddhhmmss.shai

Please refer to "chemSHERPA Operation manual for Articles" and others from the chemSHERPA website, or this entry manual Section [10] to [16] to create the File.

[3] Flow of MIS file creation

[4] Launch of MIS file

4-1 Save the MIS File sent from EIZO in any folder such as desktop.

Double-click the icon

4-2 Open the saved MIS file.

Enter your answer
Fill out "3. Safety information"

[5] MIS file: Confirmation of requested items**5-1 “- Item information”**

This item is filled in by the EIZO personnel.

Please confirm the “Requester Item Number” and “Issuing Company Item Number”

[For 1 item]

- Item information

Requester Item Number (10 digits)	1234567890
Issuing Company Item Number	abc

* When reporting multiple items, please select “Refer the multi_item sheet” and fill in the multi_item sheet.

* Reporting by multiple items is only permitted if there is no difference among items for all survey results below.

[For 2 items to 100 items] (Used only when all the answers in 1 to 3 are the same)

- Item information

Requester Item Number (10 digits)	Refer the multi_item sheet
Issuing Company Item Number	

* When reporting multiple items, please select “Refer the multi_item sheet” and fill in the multi_item sheet.

* Reporting by multiple items is only permitted if there is no difference among items for all survey results below.

- Item information (used only when entering multiple items)			Make sure to fill in the yellow blanks.	
Requester item number (Please create a separate file for more than 100 items)				
	Requester Item Number(10 digits)	Issuing Company Item Number	Requester Item Number(10 digits)	Issuing Company Item Number

input multi_item checker Prohibited substances Proposition65 EIZO environmental i ...

Note

Up to 100 items can be submitted as a single data file when multiple components are covered by a single EIZO delivery specification, for example, in the case of series components.

Note) If your responses differ among the items indicated in the request from the EIZO personnel, please create other MIS files to provide information for the items.

[6] MIS File: Data input

6-1 Make sure to fill in the yellow blanks.

Make sure to fill in the yellow blanks.

Note

Be sure to select an answer from a drop-down list for cells with the drop-down list.

If you fill in anything other than the drop-down list by copying and pasting, it will not be accepted.

6-2 “- Issuing company information”

Enter the information of the supplier or manufacturer and the date of issue.

- Issuing company information

Date of Issue	
Company Name	
Responsible Person for Issuing	
Additional Information (comments)	

Note

Regarding 6-3-1 “Prohibited Substances” and 6-4-1 “EIZO Environmental Information”, in the case of “Non-conformity”, enter the reason for the Non-conformity in the column of “Additional information (comment)”.

Depending on the reason, it may not be accepted.

6-3 “1. Legal environmental information”

For each item, select an answer from the pull-down and click.

6-3-1 “Prohibited Substances”

Prohibited substances	<Target Item> : All items delivered to EIZO <Target Substances> :Substances listed in the “Prohibited substances” sheet <Criteria for Determination> : Select “Conformity” in the right column if the target item meets the “Criteria” in the “Prohibited substances” sheet, otherwise “Non-conformity”.	Conformity Non-conformity
------------------------------	---	------------------------------

Please select from the drop-down list.

Note

In case of “Non-conformity”, please fill in the reason of the Non-conformity in the column of “Additional information (comment)”.

Depending on the reason, it may not be accepted.

6-4 “2. EIZO environmental information”

For each item, select an answer from the pull-down and click.

6-4-1 “EIZO environmental requirements”

EIZO environmental requirements	<Target Item> : All items delivered to EIZO <Criteria for Determination> : Select “Conformity” in the right column if the target item meets the “Criteria” in “EIZO environmental requirements” sheet, otherwise “Non-conformity”.. In the case of “Non-conformity”, enter the requirement number and the reason for the “Non-conformity” in the “additional information (comment)” column at the MIS.	Conformity Non-conformity
--	--	------------------------------

Please select from the drop-down list.

Note

In case of “Non-conformity”, please fill in the reason of the Non-conformity in the column of “Additional information (comment)”.

Depending on the reason, it may not be accepted.

6-4-2 “Environmentally Hazardous Substances in Plastics A) Bromine/Chlorine”

Environmentally hazardous substances in plastics	<p><Target item>: Items 1 to 5 below, or items including 1 to 5 below</p> <ol style="list-style-type: none"> 1. Plastic part (only parts for product housing are 0.5g or more, and other parts are 25g or more) 2. Printed circuit board 3. Electrical cable (Power cord, External signal cable) 4. Power supply socket or inlet 5. Wiring harness (including FFC) <p><Criteria for Determination> : Select "Not contained" if the plastic of the target item does not contain the following substances exceeding 1000 ppm, otherwise "Contained". If the item is not the "Target item", select "Not applicable".</p> <p>A) Bromine/chlorine or compounds containing bromine/chlorine B) Phosphorus or compounds containing phosphorus</p> <p>If additives (flame retardants / plasticizers / vinyl polymer stabilizers) are contained in the target item, enter the information on the additives according to the description example in the table below. Mandatory fields are noted with an asterisk (*). *For wiring harnesses, applicable additives may only be plasticizers. If the target item does not contain any additives, please select "No additives" in the upper left yellow cell in the table below.</p> <p>"GS Benchmark": Select the benchmark value of the additive substance based on the GreenScreen assessment. (See the URL below or the TCO certified accepted substance list below) https://tcocertified.com/updates-and-changes/benchmarking-chemicals-with-greenscreen-in-tco-certified/</p> <p>"Listed in TCASL": Select whether the additive substance is listed on the TCO Certified Accepted Substance List (TCASL). (See the following URL). https://tcocertified.com/industry/accepted-substance-list/</p>	A) Bromine/ Chlorine	<div>Not contained</div> <div>Contained</div> <div>Not applicable</div>
		B) Phosphorus	

Please select from the drop-down list.

6-4-3 “Environmentally Hazardous Substances in Plastics B) Phosphorus”

Environmentally hazardous substances in plastics	<p><Target item>: Items 1 to 5 below, or items including 1 to 5 below</p> <ol style="list-style-type: none"> 1. Plastic part (only parts for product housing are 0.5g or more, and other parts are 25g or more) 2. Printed circuit board 3. Electrical cable (Power cord, External signal cable) 4. Power supply socket or inlet 5. Wiring harness (including FFC) <p><Criteria for Determination> : Select "Not contained" if the plastic of the target item does not contain the following substances exceeding 1000 ppm, otherwise "Contained". If the item is not the "Target item", select "Not applicable".</p> <p>A) Bromine/chlorine or compounds containing bromine/chlorine B) Phosphorus or compounds containing phosphorus</p> <p>If additives (flame retardants / plasticizers / vinyl polymer stabilizers) are contained in the target item, enter the information on the additives according to the description example in the table below. Mandatory fields are noted with an asterisk (*). *For wiring harnesses, applicable additives may only be plasticizers. If the target item does not contain any additives, please select "No additives" in the upper left yellow cell in the table below.</p> <p>"GS Benchmark": Select the benchmark value of the additive substance based on the GreenScreen assessment. (See the URL below or the TCO certified accepted substance list below) https://tcocertified.com/updates-and-changes/benchmarking-chemicals-with-greenscreen-in-tco-certified/</p> <p>"Listed in TCASL": Select whether the additive substance is listed on the TCO Certified Accepted Substance List (TCASL). (See the following URL). https://tcocertified.com/industry/accepted-substance-list/</p>	A) Bromine/ Chlorine	<div>Not contained</div> <div>Contained</div> <div>Not applicable</div>
		B) Phosphorus	

Please select from the drop-down list.

Tips

The drop-down lists for A) Bromine/Chlorine and B) Phosphorus are linked. Selecting one narrows down both drop-down lists.
Clearing the selection resets the drop-down lists.

6-4-4 Table for Additive

In case of "Contained", please fill in the table following the example.

Table for Additive		information of plastic part					Information of additive						
Type of Target item (*)	Plastic part name (*)	Base material (*)	Base material Model number (*)	Manufacture name (*)	Weight of plastic part (g) (*)	Concentration of additive (%) (*)	Types of additive (*)	Material type of additive (*)	Name of additive	CAS	GS benchmark (*)	Listed in TCASL (*)	
(e.g.)1. Plastic part	FRONT PANEL	PS	ABC123	ABC Plastic Co. Ltd.	400	12.5%	Additive flame retardant	Phosphorus	Triphenyl phosphate	115-86-6	2	Yes	
(e.g.)2 Printed wiring board	PCB-SW	EP	XY-456	ABC Chemicals Co. Ltd.	20	25.0%	Reactive flame retardant	Brominated	Tetrabromobisphenol A	79-94-7	U	No	
(e.g.)3. Power cord	Jacket	PVC	XY-789	ABC Plastic Co. Ltd.	75	26.7%	Plasticizer	Other	Epoxidized soya bean oil	8013-07-8	3	Yes	
<div style="display: flex; justify-content: space-between;"> <div style="width: 30%;"> <p>No additives</p> <p>1. Plastic part</p> <p>2. Printed circuit board</p> <p>3. Power cord</p> <p>3. External signal cable</p> <p>4. Power supply socket or inlet</p> <p>5. Wiring harness</p> <p>5. FFC or Other</p> </div> <div style="width: 30%;"> <p>Required to enter.</p> <p>Note ! ----- Please be sure to select from the drop-down list. (Please do not copy and paste.)</p> </div> <div style="width: 30%;"> <p>Flame retardant</p> <p>Plasticizer</p> <p>Vinyl polymer stabilizer</p> <p>Phosphorus</p> <p>Brominated</p> <p>Chlorinated</p> <p>Other</p> <p>Required to enter.</p> <p>Note ! ----- Please be sure to select from the drop-down list. (Please do not copy and paste.)</p> </div> </div>													

Tips

Please select the appropriate value from the pull-down list for "Type of Target item", "types of Additive", "Material type of additive", "GS benchmark" and "Listed in TCASL".

Note

If the cells of "Type of Target item", "types of Additive", "Material type of additive", "GS benchmark" and "Listed in TCASL" are filled with anything other than the drop-down list such as by copy and paste, **it will not be accepted.**

Note

Enter all alphanumeric characters in one-byte alphanumeric characters.

6-4-5 Table for Additive

If the item does not contain any additives, please select "No additives". No detailed information is required.

Table for Additive		information of plastic part					Information of additive						
Type of Target item (*)	Plastic part name (*)	Base material (*)	Base material Model number (*)	Manufacture name (*)	Weight of plastic part (g) (*)	Concentration of additive (%) (*)	Types of additive (*)	Material type of additive (*)	Name of additive	CAS	GS benchmark (*)	Listed in TCASL (*)	
(e.g.)1. Plastic part	FRONT PANEL	PS	ABC123	ABC Plastic Co. Ltd.	400	12.5%	Additive flame retardant	Phosphorus	Triphenyl phosphate	115-86-6	2	Yes	
(e.g.)2 Printed wiring board	PCB-SW	EP	XY-456	ABC Chemicals Co. Ltd.	20	25.0%	Reactive flame retardant	Brominated	Tetrabromobisphenol A	79-94-7	U	No	
(e.g.)3. Power cord	Jacket	PVC	XY-789	ABC Plastic Co. Ltd.	75	26.7%	Plasticizer	Other	Epoxidized soya bean oil	8013-07-8	3	Yes	
<div style="display: flex; justify-content: space-between;"> <div style="width: 30%;"> <p>No additives</p> <p>1. Plastic part</p> <p>2. Printed circuit board</p> <p>3. Power cord</p> <p>3. External signal cable</p> <p>4. Power supply socket or inlet</p> <p>5. Wiring harness</p> <p>5. FFC or Other</p> </div> <div style="width: 30%;"> <p>No additives</p> </div> <div style="width: 30%;"> <p>No additives</p> </div> </div>													

Tips

The table will be grayed out. In that case, no entry is required.

6-5 "3. Safety information"

For each item, select an answer from the pull-down and click.

6-5-1 "Batteries / Accumulators"

Batteries / Accumulators	<p><Target Item> : All items delivered to EIZO</p> <p><Criteria for Determination> : If the target item has built-in batteries or accumulators, or if it is a battery or accumulator itself, select "Applicable", otherwise select "Not applicable" in the right column.</p>	<p>Not applicable</p> <p>Applicable</p>
---------------------------------	--	---

Please select from the drop-down list.

6-5-2 "Red phosphorus"

Red phosphorus	<p><Target Item> : All items including plastic delivered to EIZO</p> <p><Criteria for Determination> : Select "Not contained" in the right column if there is no intentional red phosphorus content in the plastic of the target item, otherwise "Contained". It is "Not applicable", if the item is not the "Target item" (does not include plastic).</p> <p>Note: When it is "Contained", enter the information on the red phosphorus according to the description example in the table below. Mandatory fields are noted with an asterisk (*).</p>	<div>Not contained Contained Not applicable</div>
-----------------------	---	---

Please select from the drop-down list.

6-5-3 In case of "Contained", please fill in the table following the example.

Part used red phosphorus (*)	Use application of red phosphorus (*)	Weight of red phosphorus (g) (*)	Weight of homogeneous material containing red phosphorus (g) (*)	Content rate (%) Automatic calculation	Management method to prevent insulation degradation (*)
(e.g.) DC plug plastic part	Flame retardants	0.05	5.00	1.00	Treated with a water-resisting coating

Required to enter.

Not necessary to enter.
(because of automatic entry)

Required to enter.

Tips

It is not necessary to enter a value for "Content rate(%)" because it will be displayed automatically when "Weight of red phosphorus (g)" and "Weight of homogeneous material containing red phosphorus (g)" are entered.

Note

Enter all alphanumeric characters in one-byte alphanumeric characters.

6-5-4 In case of "Non-contained" or "Not applicable", detailed information is not required.

Red phosphorus	<p><Target Item> : All items including plastic delivered to EIZO</p> <p><Criteria for Determination> : Select "Not contained" in the right column if there is no intentional red phosphorus content in the plastic of the target item, otherwise "Contained". It is "Not applicable", if the item is not the "Target item" (does not include plastic).</p> <p>Note: When it is "Contained", enter the information on the red phosphorus according to the description example in the table below. Mandatory fields are noted with an asterisk (*).</p>				Not contained
Part used red phosphorus (*)	Use application of red phosphorus (*)	Weight of red phosphorus (g) (*)	Weight of homogeneous material containing red phosphorus (g) (*)	Content rate (%) Automatic calculation	Management method to prevent insulation degradation (*)
(e.g.) DC plug plastic part	Flame retardants	0.05	5.00	1.00	Treated with a water-resisting coating

Tips

The table will be grayed out. In that case, no entry is required.

6-6 Details of survey contents

Prohibited substances	<p><Target Item> : All items delivered to EIZO</p> <p><Target Substances> : Substances listed in [Table 2-1]</p> <p><Criteria for Determination> : It is "Conformity" if the target item meets the "Criteria" in [Table 2-1], otherwise "Non-conformity".</p>	<p>- Conformity</p> <p>- Non-conformity</p>
EIZO environmental requirements	<p><Target Item> : All items delivered to EIZO</p> <p><Criteria for Determination> : It is "Conformity" if the target item meets the "Criteria" in Section 6-1-2, otherwise "Non-conformity". In the case of "Non-conformity", enter the requirement number and the reason for the "Non-conformity" in the "additional information (comment)" column at the MIS.</p>	<p>- Conformity</p> <p>- Non-conformity</p>
Environmentally hazardous substances in plastics	<p><Target Item> : Items 1 to 5 below, or items including 1 to 5 below</p> <ol style="list-style-type: none"> 1. Plastic part (only parts for product housing are 0.5g or more, and other parts are 25g or more) 2. Printed circuit board 3. Electrical cable (power cord, external signal cable) 4. Power supply socket or inlet 5. Wiring harness (including FFC) <p><Criteria for Determination> : It is "Not contained" if the plastic of the target item does not contain the following substances exceeding 1000 ppm, otherwise "Contained". It is "Not applicable", if the item is not the "Target item". A) Bromine/Chlorine or compounds containing bromine/chlorine B) Phosphorus or compounds containing phosphorus</p> <p>Note: If additives (flame retardants / plasticizers / vinyl polymer stabilizers) are contained in the target item, enter the information on the additives according to the description example in the table. Mandatory fields are noted with an asterisk (*). *For wiring harnesses, applicable additives may only be plasticizers.</p> <p>"GS Benchmark": Select the benchmark value of the additive substance based on the GreenScreen assessment (see the URL below or the TCO certified accepted substances list below). https://tcocertified.com/updates-and-changes/benchmarking-chemicals-with-greenscreen-in-tco-certified/</p> <p>"Listed in TCASL": Select whether the additive substance is listed on the TCO Certified Accepted Substance List (TCASL: see the following URL). https://tcocertified.com/industry/accepted-substance-list/</p>	<p>For both A) and B), select from:</p> <p>- Not contained</p> <p>- Contained</p> <p>- Not applicable</p> <p>In addition, enter necessary information</p>
Batteries / Accumulators	<p><Target Item> : All items delivered to EIZO</p> <p><Criteria for Determination> : If the target item has built-in batteries or accumulators, or if it is a battery or accumulator itself, it is "Applicable", otherwise it is "Not applicable".</p>	<p>- Not applicable</p> <p>- Applicable</p>
Red phosphorus	<p><Target Item> : All items including plastic delivered to EIZO</p> <p><Criteria for Determination> : It is "Not contained", if there is no intentional red phosphorus content in the plastic of the target item, otherwise "Contained". It is "Not applicable", if the item is not the "Target item" (does not include plastic).</p> <p>Note: When it is "Contained", enter the information on the Red Phosphorus according to the description example in the table. Mandatory fields are noted with an asterisk (*).</p>	<p>- Not contained</p> <p>- Contained</p> <p>- Not applicable</p>

[7] MIS File: Verification of your input data**7-1 “- Status checker”**

7-1-1 Make sure that the [Entry Status] is “Complete”, the [Conformity Status] of the [Prohibited substances] and the [EIZO environmental requirements] are “Conformity”.

Entry Status		Complete
Conformity Status	Prohibited substances	Conformity
	EIZO environmental requirements	Conformity

7-1-2 In case of the [Entry Status] is "Incomplete"

Entry Status		Incomplete
Conformity Status	Prohibited substances	Non-conformity
	EIZO environmental requirements	Non-conformity

Please check the worksheet of the “checker”, and enter or correct the insufficient answers for the parts where the column of [Completion] are “No”.

Fields	Required item	Completion	Notes	hyperlink to source
- Item information	Requester Item Number (10 digits)	Yes		input!M6
		Yes		input!M6
	Issuing Company Item Number	Yes		input!M7
		Yes		input!M7
on the "multi_item" sheet - Item information (used only when entering multiple items)		Yes		multi_item!B5
	Requester Item Number, Issuing Company Item Number	Yes		multi_item!B5
		Yes		multi_item!B5
		Yes		multi_item!B5
- Issuing company information	Date of Issue	Yes		input!M12
	Company Name	Yes		input!M13
	Responsible Person for Issuing	Yes		input!M14
1. Legal environmental information	Prohibited substances	No	Select an answer for "Prohibited substances" from the drop-down list	input!BA21
2. EIZO environmental information	EIZO environmental requirements	Yes		input!BA49
	Environmentally Hazardous Substances in Plastics A) Bromine/Chlorine	Yes		input!BA51
	Environmentally Hazardous Substances in Plastics B) Phosphorus	Yes		input!BA53
		Yes		input!B68
	Table for Additive	Yes		input!B68
3. Safety information		Yes		input!B68

	Batteries / Accumulators	Yes		input!BA97
	Red phosphorus	Yes		input!BA99
		Yes		input!B102
	Table for Red phosphorus	Yes		input!B102
		Yes		input!B102

Tips

Click the link in the column of the [hyperlink to source] where the [completion] is “No” to move to the relevant location.

7-1-3 When the [Conformity Status] is “Non-conformity”

If the [Prohibited substances] and [EIZO environmental requirements] are “Non-conformity” or one of them is “Non-conformity”, please enter the reason for the “Non-conformity” in the column of [Additional Information (comments)] in the “- Issuing company information”.

Entry Status		Complete
Conformity Status	Prohibited substances	Non-conformity
	EIZO environmental requirements	Conformity

Entry Status		Complete
Conformity Status	Prohibited substances	Conformity
	EIZO environmental requirements	Non-conformity

- Issuing company information

Date of Issue	
Company Name	
Responsible Person for Issuing	
Additional Information (comments)	

[8] Saving MIS file

Make sure that the [Entry Status] is “Complete”, and save the MIS file in any folder.

Set the file name as follows.

Example)

1234567890	MIS2.3	20241101	.xlsx
1	2	3	4

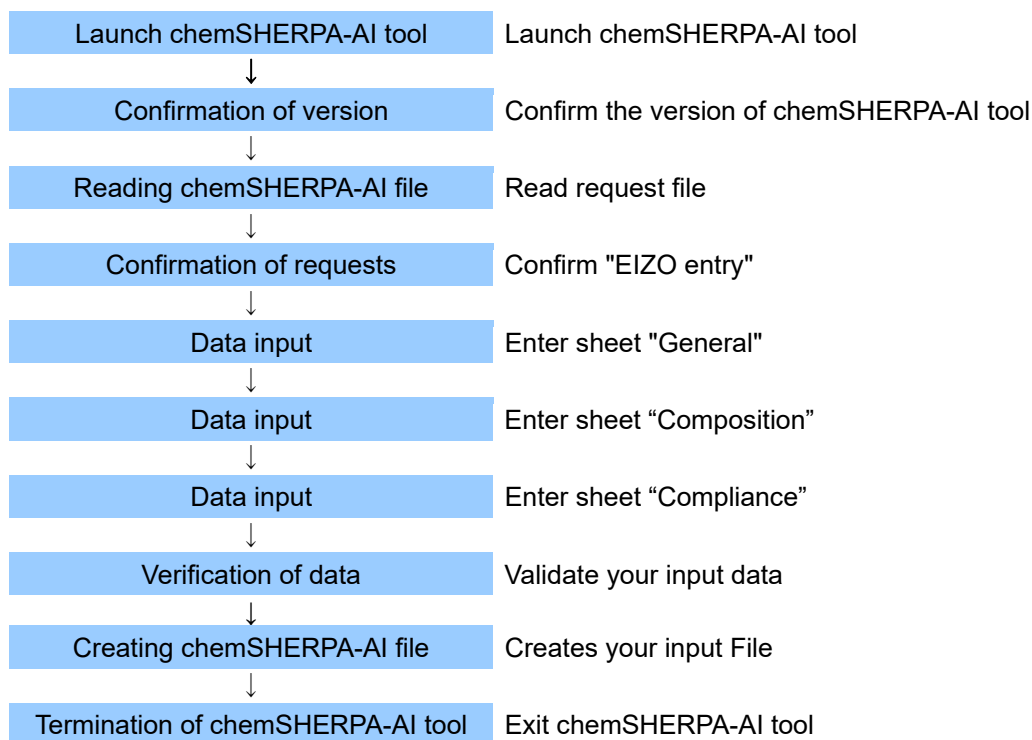

1	EIZO item number 10-digit alphanumeric code entered in the column of [Requester Item Number] of “-item information” * If multiple items are entered, please use the first item (No.1) in the worksheet “multi_item”.
2	_MIS2.3
3	yyyymmdd Add it in creating the file, because it is not assigned automatically. If the file is output on November 1, 2024, it will be “20241101”
4	Extension

[9] Closing MIS file

Close the MIS file.

[10] Flow of chemSHERPA-AI file creation

Tips

To create chemSHERPA-AI file, please refer to this entry manual, "chemSHERPA_Operation manual for Articles" and "chemSHERPA_Data entry manual for Articles" from **the official website of chemSHERPA**, and others.

URL : <https://chemsherpa.net/english/tool>

Note) Company name, personnel name, email address are required when downloading the tool.

[11] Launch chemSHERPA-AI tool

11-1 After downloading Set of files of chemSHERPA data entry support tool for articles and manuals from chemSHERPA website, please save and unzip the tool in any folder such as the desktop.

URL: <https://chemsherpa.net/english>

Tips

The chemSHERPA-AI tool does not work alone.

Place the unzipped whole tool kit downloaded from the chemSHERPA web site into the local folder.

The chemSHERPA tool is software for creating chemSHERPA files and can be used repeatedly. You don't need to Download the tool until the version is updated.

Tips

To use the chemSHERPA-AI tool, "Microsoft .Net Framework 4.5 or higher" must be installed.

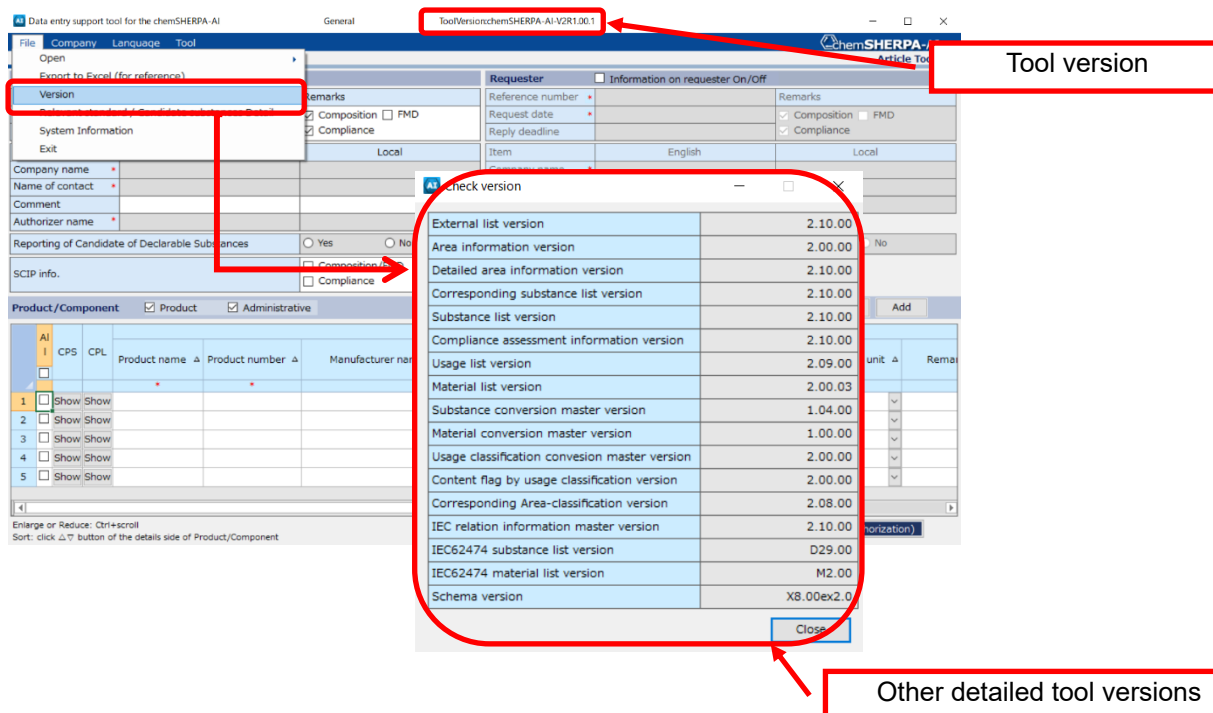

11-2 Double-click the saved chemSHERPA-AI tool icon.

Double-Click the icon

[12] Confirm version of chemSHERPA-AI tool

12-1 Confirm the tool version on the screen “General” in the chemSHERPA-AI tool.

The screenshot shows the 'General' tab of the chemSHERPA-AI tool. A red box highlights the 'Tool version' field in the top right corner, which displays 'ToolVersion: chemSHERPA-AI V01.00.1'. Another red box highlights the 'Check version' dialog box, which lists various tool components and their versions. The dialog box has a 'Close' button at the bottom right.

Component	Version
External list version	2.10.00
Area information version	2.00.00
Detailed area information version	2.10.00

Schema version	X8.00ex2.0

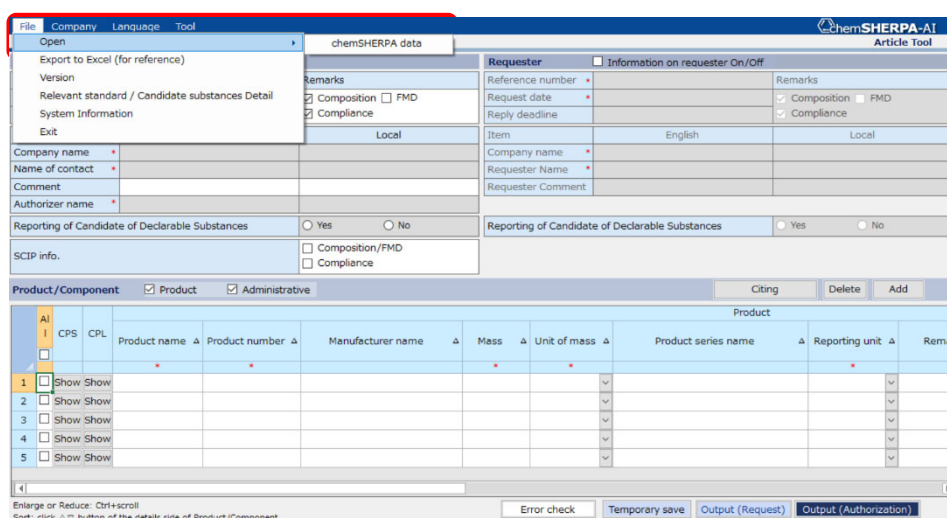

Tips

Use the version of the tool specified in survey request.
Use the latest version of the tool if not specified.

[13] Reading chemSHERPA-AI file

13-1 Save the chemSHERPA-AI file sent from EIZO in any folder such as the desktop.

13-2 Click “File” → “Open” → “chemSHERPA data” in chemSHERPA-AI tool.

The screenshot shows the 'File' menu of the chemSHERPA-AI tool with 'Open' selected. The 'chemSHERPA data' file is loaded. The 'Product/Component' table is visible at the bottom, showing columns for Product name, Product number, Manufacturer name, Mass, Unit of mass, Product series name, Reporting unit, and Remarks.

Product/Component	Product name	Product number	Manufacturer name	Mass	Unit of mass	Product series name	Reporting unit	Remarks
1	Show Show							
2	Show Show							
3	Show Show							
4	Show Show							
5	Show Show							

13-3 File reading is complete.

13-4 Screen after loading file

After reading the file, the following image will be displayed.

Image of "General"

The screenshot shows the 'General' tab of the ChemSHERPA-AI Article Tool. The interface is divided into two main sections: 'Issuer/Authorizer' and 'Requester'. The 'Requester' section is highlighted with a blue box. Below these sections is a table for 'Product/Component' with columns for 'Requester' and 'Product'. The first row of the table is highlighted with a blue box. At the bottom, there are buttons for 'Error check', 'Temporary save', 'Output (Request)', and 'Output (Authorization)'.

<EIZO entry>

Confirm the following information on [Requester]

- Checkbox of "Information on requester On/Off"
- [Reference number], [Request date], [Reply deadline] (if necessary)
- [Reporting of Candidate of Declarable Substances] "Yes" is selected.
- Checkbox of "Composition" and "Compliance" in [Remarks]

Confirm the following Information on [Product]

- [Product name], [Product number]
(Please enter in English using half-width alphanumeric characters.)
- [Reporting unit] ("piece" is selected.)

Note

Please enter [Product name] in the "Product" field in English using half-width alphanumeric characters.

[14] chemSHERPA-AI File: Data Input

14-1 Display the image of “General”, and fill out the response data.

Image of “General”

The screenshot shows the 'General' tab of the chemSHERPA-AI Article Tool. The interface includes a top menu bar with 'File', 'Company', 'Language', and 'Tool'. Below this, there are tabs for 'Company' and 'Language', with 'Company' selected. The main area is divided into several sections:

- Requester Information:** Includes fields for 'Reference number' (01), 'Preparation Date' (2024-11-01), 'Authorization Date' (2024-11-01), 'Item' (English/Local), 'Company name', 'Name of contact', 'Comment', and 'Authorizer name'. There are checkboxes for 'Composition' and 'FMD' under 'Remarks'.
- Reporting of Candidate of Declarable Substances:** Includes a radio button for 'Yes' (selected) and 'No', and checkboxes for 'Composition/FMD' and 'Compliance' under 'SCIP info'.
- Product/Component:** A table with columns for 'Product name', 'Product number', 'Manufacturer name', 'Mass', 'Unit of mass', 'Product series name', 'Reporting unit', 'Remarks', 'Overall content flag', 'Valid From', 'Revision date', and 'Revision history'. The first row is highlighted with a red box and labeled with a red circle 5.
- Buttons:** 'Error check', 'Temporary save', 'Output (Request)', and 'Output (Authorization)' are at the bottom right.

Red circles and arrows indicate the following steps:

- ① Click 'Company' → 'Issuer/Authorizer' to display 'Issuer/Authorizer' Information. → Go to 14-2
- ② Enter [Reference number], [Preparation date] and [Authorization date]. Confirm that the "Composition" and "Compliance" are checked.
- ③ [Reporting of Candidate of Declarable Substances] "Yes" or "No" are checked.
- ④ Check the item number to enter
- ⑤ Enter the required items marked with * Enter [Product Name], [Product Number], [Mass], [Unit of mass] and [Valid From]. Make sure that [Product name] in the "Product" field are entered in English using half-width alphanumeric characters. Confirm that "Reporting Unit" is "Piece". Input of other items is optional
- ⑥ Click "CPS" to open the image of "Composition" ⇒ Go to section 14-3
- ⑥ Click "CPL" to open the image of "Compliance" ⇒ Go to section 14-4

Data Input

Information on [Issuer/Authorizer]

(1) Click "Company" → "Issuer/Authorizer" to display "Issuer/Authorizer" Information. → Go to 14-2

Data Input

Information on [Issuer/Authorizer]

(2) Enter [Reference number], [Preparation date] and [Authorization date]. Confirm that the "Composition" and "Compliance" are checked.

(3) [Reporting of Candidate of Declarable Substances] "Yes" or "No" are checked.

(3) Make sure that "IEC62474" in the [Area] and "Composition" in the [SCIP info.] are checked. ("Compliance" in the [SCIP info.] is optional.)

Data Input

Information on [Product]

(4) Check the item number to enter

(5) Enter the required items marked with *

Enter [Product Name], [Product Number], [Mass], [Unit of mass] and [Valid From]

Make sure that [Product name] in the "Product" field are entered in English using half-width alphanumeric characters.

Confirm that "Reporting Unit" is "Piece"

Input of other items is optional

Data Input

Information on [Composition]

(6) Click "CPS" to open the image of "Composition" ⇒ Go to section 14-3

Data Input

Information on [Compliance]

(6) Click "CPL" to open the image of "Compliance" ⇒ Go to section 14-4

ヒント

[Reporting of Candidate of Declarable Substances] is a declaration of whether or not the content check was intended and implemented.

If there is a candidate of declarable substances (listed on the substance list), please make sure that it is checked. ("Yes" is recommended.)

If there is no candidate of substances (not listed in the substance list), no declaration is required.

Note

Please enter [Product name] in the "Product" field in English using half-width alphanumeric characters.

14-2 Click "Company" → "Issuer/Authorizer" to display "Issuer/Authorizer" information.

Image of "Issuer/Authorizer"

The screenshot shows a web form for entering Issuer/Authorizer information. It is divided into two main sections: "<<Issuer>>" and "<<Authorizer>>". Each section has a table with columns for "Item", "English", and "Local".

Issuer Section:

- Buttons: "Import template", "Register template", "OK" (circled with a red circle and number 8).
- Text: "English must be filled in."
- Fields: Organization ID, Company ID, Company name (marked with *), Division name (marked with *), Title (marked with *), Name of contact (marked with *), Email address (marked with *), Phone number (marked with *), Extension number, Postal code, Country, Prefecture, Municipality, Address.
- A red circle with the number 7 is placed over the "Email address" field.

Authorizer Section:

- Buttons: "Import template", "Register template".
- Fields: Division name (marked with *), Title (marked with *), Authorizer name (marked with *), Email address (marked with *), Phone number (marked with *), Extension number, Postal code, Country, Prefecture, Municipality, Address.
- A red circle with the number 7 is placed over the "Extension number" field.

Data Input
Information on "Issuer" and "Authorizer"
(7) Enter the required items marked with *.
(8) Click "OK"
Input of other items is optional

Tips

A template for the information on Issuer/Authorizer can be registered. After entry of the information, click "Register template". Click "Import template" to import the registered information.

14-3 Display the image of "Composition", and fill out the response data.

Image of "Composition"

Data Input

[Composition]

(9) Click "File" → "Show Article Flag" to display [Article] columns.

Confirm that the "Article" flags ("on") are selected properly.

(10) Enter the following required items marked with *.

- [Name], [quantity], [Usage], [Classification symbol], [Mass], [Unit]

(For [Name] of "Component", enter in English using half-width alphanumeric characters.)

(11) Enter as needed for the [Level], [Substance], [Optional reporting] and [Laws & regulations]

(For [Name] of "Level", enter in English using half-width alphanumeric characters.)

(12) After data input, click "Error Check".

If errors are displayed, check the error details and correct the data.

After that, click "Finalize" to set the composition information.

Data Input

["SCIP" window for "Composition"]

(13) Enter information when the "SCIP" window appears after "Finalize".

<1st line> SCIP information of the product

Enter in the following 5 items for products containing more than 0.1% SVHCs in Article.

- [Primary Article Identifier], [Article Name], [Article Category],

[Production in European Union], [Safe use instruction]

<2nd and below> SCIP information of Articles in the product

Enter in the following 6 items for articles containing more than 0.1% SVHCs in Article.

- [Primary Article Identifier], [Article Name], [Article Category],

[Production in European Union], [Safe use instruction], [Material Category]

Click "Set default value" to enter the default information of SCIP information.

Data Input

(14)(15) Click "Update" to save the SCIP information and then click "Close".

(17) Click "Return to general" to display the image of general information.

Warning

×

SCIP information will not be imported unless you click the "Update" button. Click the "Update" button to save the screen contents.
Are you sure to close the screen?

16

OK

キャンセル

Data Input

(15) If the product does not contain any articles containing SVHCs exceeding 0.1%, click "Close".

(16) Check the displayed warning message and click "OK"

(17) Click "Return to general" to display the image of general information.

Tips

In the "Article" column, by default, "ON" is selected for the [Component] and "base material" of [material].
(Can be changed as necessary)

Tips

If "Error check" causes some errors in the [Mass] column of [component] field, they are automatically calculated by clicking "Recalculation".

Note

For [Name] of "Component" and "Level" in "Composition" window, enter in English using half-width alphanumeric characters.
(It is not acceptable if full-width characters are included.)

Tips

To display the "SCIP" window after finalizing in the "Composition" window, it is necessary to check "Composition" in "SCIP info." in the "General" window.

Tips

Products containing more than 0.1% SVHCs in the articles require SCIP information in the "Composition" window.

Tips

By clicking "Set default value" in the "SCIP" window for "Composition", the default information of SCIP is entered.

Note

--SCIP information of the product (first row)

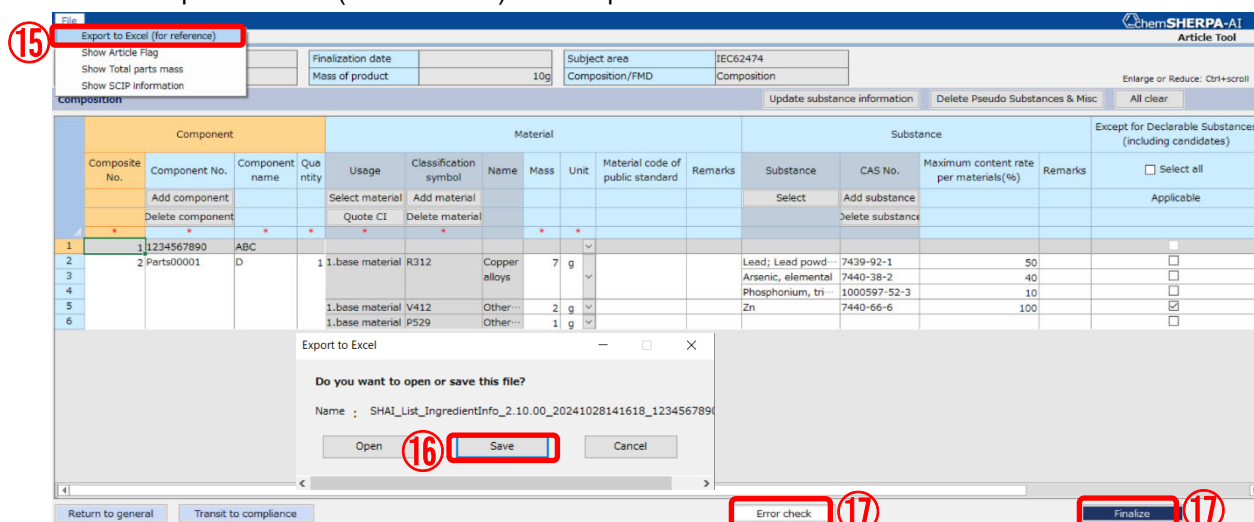

The product SCIP information is not required if the product is deemed not applicable to the SCIP registration. In this case, all of the 5 items in the "Primary Article Identifier", "Article Name", "Article Category", "Production in European Union", and "Safe use instruction" fields should be left blank.

Note

--SCIP information extracted from the composition information (second row onward)

If the concentration criteria for SCIP registration (the article as such content per article is more than 0.1%) are not met, no Content SCIP Information is required. In this case, all of the 6 items in the "Primary Article Identifier", "Article Name", "Article Category", "Production in European Union", and "Safe use instruction", and "Material Category" fields should be left blank.

14-4 How to export to Excel (for reference) in "Composition" window

Export to Excel (for reference)

- (15) Select File > Export to Excel (for reference).
 (16) Click "Save" in the message box, then specify the destination folder and file name in the file dialog box and click "Save".
 (17) Click "Error check" or "Finalize" to perform error check.

Excel file exported (for reference)

chemSHERPA-AI (Composition)													
Product number	Product name	Finalization date	Subject area	Product mass(g)	Total Amounts of Material mass(g)	Material mass Concentration within Product mass (%)	External list version	Substance list version	Tool version	Total Amounts of Component mass(g)	Component mass Concentration within Product mass (%)	Composite No.	Component No.
123456789	ABC		IEC62474	10	10	100	2.10.00	2.10.00	chemSHERPA-AI-V2R1	10	100	1	1234567890
												2	Parts00001
												3	Parts00001
												4	Parts00001
												5	Parts00001
												6	Parts00001

Export to Excel (for reference)

- (18) Check "Material mass Concentration within Product mass (%)". It shows the percentage of "Total Amounts of Material mass (g)" * to "Product mass (g)" in the "General" window.
 * Sum of values of all "Mass(material)" in the "Composition" window
 (19) Check "Component mass Concentration within Product mass (%)". It shows the percentage of "Total Amounts of Component mass (g)" ** to "Product mass (g)" in the "General" window.
 ** Sum of values of all "Mass(component)" in the "Composition" window

Tips

By performing the "Error check" shown in (16), the following error or warning will appear, depending on the value of "Material mass Concentration within Product mass (%)" shown in (17) or "Component mass Concentration within Product mass (%)" shown in (18).

- More than 110%: Error, - Less than 90%: Warning, - 110% or less and more than 100%: Warning

Note

If the "Material mass Concentration within Product mass (%)" or "Component mass Concentration within Product mass (%)" is less than 90% or more than 110%, it cannot be accepted.
 Please confirm that it is 90% or more and 110% or less.

Note

Be sure to enter the correct "CAS No." *(which applies to "Optional reporting Applicable")
In the following cases, it will not be accepted.

- Incorrect CAS number**
- Entry other than CAS number***

- * The "Error check" of chemSHERPA does not detect the error of CAS No.
- ** You can confirm the correctness of the CAS number by verifying check digit.
<https://www.cas.org/support/documentation/chemical-substances/checkdig>
- *** If you do not know the CAS number, you can enter "-" (hyphen) instead.

Note

Please report the information on the presence of controlled substances with chemSHERPA-AI.
Target items: All items delivered to EIZO

- * For details, refer to EIZO Green Procurement Standard Section 5.2 Controlled Substances ([Table 2-3] List of controlled substances)

Note

Please report the information on the presence of declarable substances with chemSHERPA-AI.

Target items: All items delivered to EIZO

- * For details, refer to EIZO Green Procurement Standard Section 5.3 Declarable Substances ([Table 2-4] List of relevant laws/regulations and standards for declarable substances)

Note

Please report the information on the main constituent substances (including "optional reporting applicable" ones) in chemSHERPA-AI for the materials of 10 g or more of the following target items.*

If there is no report about the substances, it will not be accepted.

Target items: A.Flat panel display module, C.Electrical cable (power cord, external signal cable) and power supply socket or inlet, C2.Wiring harness(including FFC), F.Plastic parts, G.Metal parts, I.Packaging materials, J.Other parts (other than A to I above)

- * For details, refer to EIZO Green Procurement Standard Section 6.2.1 Additional Requirement (Chemical substance survey)

14-5 Display the image of "Compliance", and fill in the answer.

Return to general Transist to composition Error check Finalize

Data Input

[Compliance]

- (20) Enter "Y" or "N" in "Content above the threshold" for each Subject substance based on [Reportable applications] and [Reporting threshold].
- (21) In case of "Y" in "Content above the threshold", enter the data in [Content rate], [Quantity of content], [Unit], [Usage code], [Usage] and [Portion used]
- (22) After data input, click "Error check"
- If the errors are displayed, check the error details and correct the data.
- After that, click "Finalize" to set the compliance information.
- (23) Click "Return to general" to display the image of general information

[15] chemSHERPA-AI file: Confirmation of response and the file saving

15-1 Display the image of “General”, verify the response data and save the chemSHERPA-AI file.

Image of “General”

The screenshot displays the 'General' window of the chemSHERPA-AI software. The window is divided into several sections. At the top, there are tabs for 'General', 'Product/Component', and 'Tool'. The 'General' tab is active, showing fields for 'Issuer/Authorizer' (Reference number, Preparation Date, Authorization Date, Item, Company name, Name of contact, Comment, Authorizer name) and 'Requester' (Reference number, Request date, Reply deadline, Item, Company name, Requester Name, Requester Comment). Below these are checkboxes for 'Composition' and 'FMD' under 'Reporting of Candidate of Declarable Substances'. The 'Product/Component' tab is also visible, showing a table with columns for 'AI', 'CPS', 'CPL', 'Product name', 'Product number', 'Product name', 'Product number', 'Manufacturer name', 'Mass', 'Unit of mass', 'Product series name', 'Reporting unit', 'Remarks', 'Overall content flag', 'Valid From', 'Revision date', 'Revision history', 'Data entry status', 'Composition', and 'Compliance'. The 'Data entry status' column for the first row is highlighted with a red circle (24). The 'Composition' and 'Compliance' columns are also highlighted with a red circle (24). Below the table, there is a section for 'Authorization' with a text area for 'Do you authorize the data you entered to export chemSHERPA', 'Authorizer name (English)', 'Authorizer name (Local)', and a checkbox for 'Responsible information handling'. There is also a 'Disclaimer' section. At the bottom, there are buttons for 'Output in V2ex format', 'Output in V2 format', 'Error check', 'Temporary save', 'Output (Request)', and 'Output (Authorization)'. The 'Output in V2ex format' button is highlighted with a red circle (27), and the 'Output (Authorization)' button is highlighted with a red circle (26). The 'Error check' button is highlighted with a red circle (25).

Verification of Response

- (24) In the "Data entry status" field;
make sure that "Composition" ends with "... Finalize (with SCIP info)".
(If the product does not contain any articles containing SVHCs exceeding 0.1%, "(with SCIP info)" is optional.)
For "Compliance", make sure that it is "... Finalize", and the following "(with SCIP info)" is optional.
- (25) After data input, click "Error check"
If the errors are displayed, check and correct them

File Output

- (26) Click "Output (Authorization)" to output chemSHERPA-AI file to be submitted.
- (27) Click on "Output in V2ex format" and then "Authorize Output".
Click "Authorize/Output" to output chemSHERPA-AI file for submission.

Note

If the "Composition" entry in the "data entry status" field in the "General" window does not include "(with SCIP info)", it is not acceptable.
However, only when there is no article containing 0.1% or more of SVHC in the product, it is not acceptable even if the "Composition" entry in the "data entry status" field in the "General" window does not include "(with SCIP info)".

注意

Select "Output V2ex format" for the output format, and Authorize/Output. However, files that have been Authorize/Output by selecting the Output V2 format cannot be accepted.

Tips

Make sure that the product / part information selection column for file output is checked.

15-2 File name

Set the file name by combining the following conditions in output of chemSHERPA-AI file.

Example) 1234567890_ SHAI_01_2.10.00_V2ex_ 20241101121655 .shai
 1 2 3 4
